

Technical Data for QLV Series

Base Material	White ultra-destructible cast vinyl film
Base Material Thickness	1.0 mil (0.025 mm)
Adhesive Thickness	1.0 mil (0.025 mm)
Adhesive Type	Permanent Pressure Sensitive Clear Acrylic
Adhesive Strength (stainless steel, 15 min. 180° dwell)	Material tore
Temperature Range	-50°F to 180°F, (-46°C to 82°C)
Minimum Application Temperature	40°F (4°C)
Storage Life	2 years stored at 70°F and 50% R.H.

TDS-QLV

Product Performance and Suitability

All of the descriptive information and recommendations for the use of Advanced Calibration Label products should be used only as a guide. Furnishing such information and recommendations shall in no event constitute a warranty of any kind by Advanced Calibration Label. All purchasers of Advanced Calibration Label products shall independently determine the suitability of the material for the purpose for which it is purchased. No distributor, salesman, or representative of Advanced Calibration Label is authorized to give any warranty, guaranty, or to make any representation in addition or contrary to the above.
